Vision Statement

The collective vision statement of the Sweetened Beverage Tax Community Advisory Board for how the beverage tax can positively impact the long term future of the community:

A connected community where healthy food and clean water are accessible to all, creating collective wellbeing and happiness and lifting the burden of disease and stress.

Core Values

The core values of the Sweetened Beverage Tax Community Advisory Board represent the beliefs and behaviors by which all CAB members shall conduct themselves and provide a foundation for decision-making and action:

Racial Justice and Social Equity – We will strive for equitable distribution of resources and power to address the effects of classism and historic racism and its impact on health and education disparity.

Cultural humility – We recognize we will not know all the nuances of the cultural ways for everyone represented in the City of Seattle and therefore approach with humility, an open mind, and respect.

Voice of the community – We will center on the communities most impacted by health and education inequities and make space for them to speak their concerns and solutions.

Balance between community-driven solutions and scientific evidence – We acknowledge that innovative community ideas can provide important solutions to consider in balance with evidence-based programs.

Transparency – We commit to open and honest communication within the Community Advisory Board, community and government regarding the tax decision making and how funds are used and distributed.

Accountability – We are responsible to hold the City accountable to the actions outlined in the ordinance and advise the City Council and Mayor based on our role of representing the community.

Trust – We commit to cultivating trust by building and repairing relationships

Budget Principles

The budget recommendations of the Sweetened Beverage Tax Community Advisory Board are rooted in the fundamental conviction that investments supported by the beverage tax revenues should prioritize allocation of funds to communities disproportionately affected by health and education inequities, especially those related to the adverse health effects of sugary drinks. To ensure this, the CAB recommends the following budget and operational principles. We use these principles to develop our budget recommendations and we strongly recommend the City use them when developing an allocation plan for Sweetened Beverage Tax revenue and implementing programs and services.

Priority populations: All programs and activities funded by the Sweetened Beverage Tax should focus on reaching communities of color, immigrants, refugees, people with low income, and individuals with limited-English proficiency. Youth from these communities are also a priority. These are also populations that are disproportionately targeted by the sugary drink industry.

Place-based focus areas: Programs and activities funded by the Sweetened Beverage Tax should focus on areas where communities of color, immigrants, refugees, people with low income and individuals with limited-English proficiency live.

Community-driven: Programs and activities funded by the Sweetened Beverage Tax should be led or guided by community-based organizations with authentic connections to the focus community. Authentic connections to the focus community is further defined in our criterion for Equity (see below).

Culturally-responsive: Programs and activities funded by the Sweetened Beverage Tax should be culturally responsive and delivered in ways that are accessible and comfortable for the focus population (or community).

Prevention-oriented: Programs and activities funded by the Sweetened Beverage Tax should focus on prevention of sugary drink consumption and the chronic conditions caused by sugary drinks.
